Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 U.S.C. § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

1. Claims 1-3, 5, 7-9 are rejected under 35 U.S.C. 103(a) as being unpatentable over Callewaert et al. [6346865] in view of Smith [6087922].

Callewaert discloses a conductor in which plurality of plate portions 60, 65, 64, 65 are connected to each other at portions 70,71 thereof, at least two plate portions formed into coil by winding plate portions around winding core 52; said plate portions to be connected to each other are arranged point-symmetrically about connecting point thereof [see figure 3]; conductor having plural terminals 58,66,68 in position protrude from an area of said plate portions that is wound around the winding core.

Callewaert discloses the invention as claimed except for the conductor but the terminals, having insulated by insulating material layer. Smith discloses insulating foil strip 32 with uninsulating sections 32 [col 10, lines 27-30]. At the time of the invention, it would have been obvious to a person of ordinary skill in the art to use insulation sheet as taught by Smith to the conductor disclosed by Callewaert. The motivation would have been electrically insulate the winding turns from each other. Therefore, it would have been obvious to combine Smith with Callewaert.

FIG. 3

With respect to claims 2-3, the connecting portions are used as tap or center-tap as intended use of applicant.

FIG. 7B

With respect to claim 5, figure 7b of Smith having laminate of inductor and insulator [col 10, lines 40-44].

With respect to claims 7-8, Callewaert's figure 3 shows the electrode corresponding to a vicinity of a center of the coil.

With respect to claim 9 is rejected for reciting method/step derived from the structure of claim 1 which is rejected above.

Response to argument

2. Applicant's arguments with respect to claims 1-3, 5, 7-9, have been considered but are moot in view of the new ground(s) of rejection.

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
